Subject: Citywide TDM Ordinance

Sue-Ellen:

I reviewed the staff report for tonight's joint Planning Commission and Sustainability and Infrastructure Commission. Overall, it indicates a lot of effort and a solid foundation of a well-rounded ordinance for ultimate review and approval.

Thinking about the questions posed for feedback, I have two questions about content that I wanted to share with you.

- First, regarding question 3, what is the basis for the noncompliance fines structure shown in Table 13? I found no information other than the dollar figures.
- Second, regarding question 4, what actual monitoring is required; or, what is included in a TDM Monitoring Report? I found no information about this in the Draft TDM Policy Manual.

Good luck tonight!

Sincerely,

Paul
