

# CITY OF SAN MATEO BOARDS AND COMMISSIONS APPLICATION

## Sustainability and Infrastructure Commission Commissioner

### REQUIREMENTS:

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

### BACKGROUND INFORMATION

Name: Aidin Sarabi

Email: [REDACTED]

Primary Phone: [REDACTED]

Address: [REDACTED] San Mateo [REDACTED]  
Street City Zip Code

San Mateo resident  
since: 2023

I am a registered voter in City of San Mateo: Yes

Board or Commission interested in serving on (*check all that apply*):

Did you attend a meeting for this Board or  
Commission?: Yes

### QUALIFICATIONS

My qualifications for serving on this board/commission are as follows: My professional background includes many years of hands-on experience managing public infrastructure projects—from planning through construction—across diverse urban environments. I have worked extensively on complex capital improvement programs, giving me a strong foundation in the key areas overseen by the Infrastructure Commission. Extensive Experience in Infrastructure Planning and Delivery I have managed large-scale projects that required coordination across multiple agencies and stakeholders. This work has given me a deep understanding of how infrastructure investments shape the long-term resilience, safety, and livability of our communities. Understanding of Policy, Budgeting, and Public Oversight I am well-versed in navigating policy frameworks, funding mechanisms, and public accountability processes that guide infrastructure decision-making. I also have experience balancing technical requirements with community priorities, ensuring that projects are both functional and publicly supported. Collaborative and Community-Centered Approach My approach to infrastructure work is rooted in transparency, collaboration, and long-term value. I prioritize equity, environmental sustainability, and responsible stewardship of public resources, and I believe public input is critical to good infrastructure planning. As a San Mateo resident, I am committed to the city's success and eager to support thoughtful investments in its infrastructure systems. I welcome the opportunity to contribute to the Commission's efforts to enhance the quality of life for all who live and work here.

I want to serve on this board/commission because: I want to serve on the Infrastructure Commission because I care deeply about the long-term health, functionality, and resilience of our city. San Mateo is growing, and with that growth comes an increased demand on our infrastructure—from transportation and utilities to public facilities and sustainability systems. I believe that smart, well-planned investments today will ensure that our city remains livable, equitable, and prepared for future challenges. With my professional experience in capital project delivery and infrastructure planning, I feel a strong sense of responsibility to give back to the community by supporting transparent, data-informed decisions that reflect both current needs and long-term goals. I look forward to collaborating with fellow commissioners, city staff, and residents to help San Mateo continue to thrive.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: I am a California licensed Engineer with more than 20 years of program, project and construction Management

## **Aidin Sarabi, P.E., P.M.P., C.C.M**

Tel: [REDACTED]

Email: [REDACTED]

### **PROFESSIONAL REGISTRATIONS:**

---

Professional Engineer (P.E.) – California & DC

Project Management Professional (P.M.P.) – Project Management Institute

Certified Construction Manager (C.C.M) - Construction Management Association of America

Certified Incident Command System – Department of Homeland Security

Initial Action Accident - Department of Homeland Security

OSHA General Industry Certification – Department of Labor

### **EDUCATION**

---

Master of Engineering in Civil Engineering, Pennsylvania State University, 2012, GPA 3.77/4.0

### **WORK EXPERIENCE**

---

- **Director of Capital Programs and Construction, SFMTA, City and County of San Francisco  
Jan 2023-Present**

Under MTA Board of Directors direction, as the Director of the San Francisco Municipal Transportation Agency (SFMTA) Capital Programs & Construction Division, I am responsible for the overall direction and administration of all programs related to capital project engineering, project delivery/management, construction management, contract administration, and capital quality assurance functions for a portion of the SFMTA capital program. I supervise approximately 135 engineering, technical and administrative staff in the Division and assume complete responsibility for the delivery of the transit, systems and facility related programs of the SFMTA's \$1.5 billion Capital Improvement Program, including new light rail extensions, complete tunnel and streets projects, facility upgrades and electrifications, and system overhead wire and rail replacement projects. I am also responsible to direct the development and implementation of construction policies, goals and objectives; manages organizational changes; ensures the enforcement of all applicable laws, ordinances and regulations; and prepares and presents reports to the SFMTA Board of Directors, FTA, and other policy and regulatory bodies.

- **Program Manager, Planning, Design & Construction Division (PD&C), San Francisco Bay Area Rapid Transit District Jan 2020 – Jan 2023**

**Managing Hayward Maintenance Complex Phase II Program: Design & Construction  
Cost Estimate: Over \$700M**

**Key Projects: Mainline Trackwork Procurement, ESY Trackwork Procurement, Civil Grading Project, East Storage Yard Project**

- Prepared PS&E, Advertised, Conducted Bid Analysis and Awarded 3 Construction/Procurement Contracts
- Prepared Scope of Services, Selected Consultants and Managed several work plans/task orders - over \$40M
- Coordinating with all internal and outside stakeholders including Federal, local and utility agencies
- Following and complying with Federal and other local agencies rules and regulations in preparing

Contract Documents (PS&E package), Implementation stage and close-outs

- Managing Budget, Scope, and Schedule of both design and construction of HMC2 contracts utilizing different application including MAXIMO (ASSET Management tool), Primavera 6 (Scheduling and Resource Allocation/Management Application), ASANA (Task Manager Application), etc.
  - Prepared and submitted a Grant Application, Funding Request/Reports, Earned Value reports, Recovery/Dynamic Risk Management Reports, Cost/Benefit Analysis, Lifecycle Cost Analysis, Change Requests/Justifications etc.
  - Managed and minimized Covid-19 impacts on the project through creative cost saving strategies
  - Managing ongoing construction by in-house forces with limited funding due to Covid19
  - Leading Environmental study to prepare CEQA and NEPA documents per State and Federal regulations
  - Leading coordination with US. Army Corps, Department of Fish and Wildlife and Regional Water Quality Control Board to avoid, mitigate and manage the environmental impacts of the project
  - Regular Reporting on cash flow, earned value, budget status and forecasts to FTA and PMOC
  - In charge of program dynamic risk registry matrix and risk assessment
  - Conducted Value Engineering per FTA regulation on \$300M project
- **Project Manager, Infrastructure Project Management Division (IPMD), Washington DC Department of Transportation December 2012 – 2020**

**Key Projects Completed:**

- Capitol Crossing Project (3<sup>rd</sup> Street Tunnel, F & G Street Bridges) – Managed Design \$30M
  - Monroe Street Bridge N.E. – Managed Design & Construction \$2.5M & \$12M
  - Rehabilitation of 1<sup>st</sup> Street Project from Mass. Avenue to G Street – Managed Design & Construction \$15M
  - Reconstruction of 1<sup>st</sup> Street N.E. from G Street to New York Avenue – Managed Construction \$3M
  - Rhode Island Streetscape Project – Managed Design \$3M
  - H Street Bridge N.E. Project – Prepared Design-Build RFQ package
  - Updating DDOT Design Engineering Manual- Author of chapter 6 “Value Engineering”
  - Served as Value Engineering Coordinator for the Department 2015-2020
- **Research Assistant, Pennsylvania State University, Pennsylvania October 2009 – October 2011**
- Applied engineering knowledge to develop, calculate and test mathematical models for civil engineering applications,
  - Used Statistics applications to model engineering problems, Integrate, summarize and synthesize data from a variety of sources (e.g. FHWA, FARS) to research, and preparing concise and accurate engineering reports.
- **Office Engineer, WSP (Parsons Brinckerhoff, Inc.) California, May 2008 – August 2009**

**Key Projects:** First Street Bridge over the Napa River, Napa, California; North Connector Project Phase 1 and Phase 2, Fairfield, California

Assisted in submittal reviews, prepared pay quantity calculations, prepared monthly progress pay estimates, processed change orders and claims, stormwater management inspection, processed material

testing requests, prepared contract change orders, processed survey requests, project documentation, maintained project files, and tracked labor compliances

- **Construction Site Supervisor, Tehran, Iran, 2004-2007**

Managed all construction activities of a petrochemical factory of new and existing products; sign-offs of job/task completion for payment to sub-contractors, record keeping of project tasks, material usage, and inventory; inspected completed works for compliance; evaluated contractors' change orders; critical path planning for project management; and also managed the safety certification program

## **RELEVANT SKILLS**

---

**Computer Skills:** Microsoft Word, Excel, Power Point, MicroStation V8, AutoCad, SketchUP, Highway Capacity Software, Synchro, SimTraffic, Primavera P6, Roadside Safety Analysis Program (RSAP), Microsoft Project, ArcGIS

## **AWARDS**

---

- Engineering Excellence Honor Award for the Design of Monroe Street Bridge NE, Washington DC by ACEC 2019
- Excellence Honor Award for Construction of Monroe Street Bridge NE, Washington DC by Heavy Construction Contractors Association 2019
- Engineering Excellence Honor Award for the Design of First Street NE, Washington DC also recognized by President Obama and President Biden in May 2014

## Sustainability and Infrastructure Commission Commissioner

### REQUIREMENTS:

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

### BACKGROUND INFORMATION

Name: Fernando Lorenzo

Email: [REDACTED] Primary Phone: [REDACTED]

Address: [REDACTED] san mateo [REDACTED]  
Street City Zip Code

San Mateo resident since: 2019 I am a registered voter in City of San Mateo: Yes

Board or Commission interested in serving on (*check all that apply*):

Did you attend a meeting for this Board or Commission?: No

### QUALIFICATIONS

My qualifications for serving on this board/commission are as follows: My qualifications for serving on the San Mateo Sustainability & Infrastructure Commission stem from a multidisciplinary background in data analytics, public sector consulting, and strategic planning. I currently serve as a Technical Consultant at Valuenex in Palo Alto, where I have led cross-sector research projects, secured \$700K in government contracts, and organized public-private stakeholder conferences that grew to over 90 attendees. I hold a master's degree in Data Analytics & Business Management from Harvard University, and a B.Sc. in Cell & Molecular Biology and Economics from San Francisco State University. My work consistently focuses on leveraging data for actionable insights, aligning well with the commission's advisory role. Additionally, I bring experience in community engagement and public-facing communication, essential for responding to resident concerns and shaping equitable infrastructure policy. I am particularly passionate about contributing to flood-resilient infrastructure in San Mateo and helping the city build climate-ready systems through data-informed solutions and grant-funded initiatives.

I want to serve on this board/commission because: I want to serve on this commission because I've seen firsthand the risks that inadequate infrastructure poses to our community—especially during the wet seasons when the threat of major flooding becomes dangerously real. I've lived in my home long enough to experience the growing impact of climate change, and after reviewing available data, I was alarmed to discover that my own property is rated 10/10 for extreme flooding risk over the next 30 years. This is not just a future concern—it's an urgent one. Serving on this commission would give me a meaningful opportunity to advocate for myself and my neighbors, ensuring that our voices are represented in shaping practical, forward-thinking solutions. I want to help the city prioritize and implement flooding mitigation strategies that are both data-driven and community-informed.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: I hold a Master's degree in Data Analytics & Business Management from Harvard University and a Bachelor of Science in Cell & Molecular Biology and Economics from San Francisco State University. Professionally, I've led projects across sectors, with a focus on strategic consulting, public-private partnerships, and infrastructure-related data analysis. I currently serve as a Technical Consultant at Valuenex in Palo Alto, where I've contributed to over \$4M in value-add consulting, led community-focused research initiatives, and helped secure \$700K in public sector grants. I'm actively involved in organizing industry and investor events focused on emerging technologies and sustainable development. My combined background in science, data, and civic engagement gives me a strong foundation to contribute thoughtfully and effectively to the Sustainability & Infrastructure Commission. A full resume is attached for your review.

**QUALIFICATIONS**

My qualifications for serving on this board/commission are as follows: I am a joint degree law student currently pursuing a JD and Master's in energy regulation. I am currently enrolled at Vermont Law and Graduate School which has top ranked energy and environmental programs. Being a current student in these programs, I have current knowledge on environmental and energy related concerns.

I want to serve on this board/commission because: I am a native San Mateo resident who wants to ensure that environmental needs are being addressed. San Mateo will always be home and I want to preserve the area to ensure other residents are afforded the opportunity to enjoy San Mateo the way I have.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: Vermont Law and Graduate School which-JD/MERL Candidate Intern Fellow for San Mateo County Supervisor, David Canepa

## GABRIELLE GODOY

### **EDUCATION**

#### **Vermont Law and Graduate School, South Royalton, VT**

Candidate for Juris Doctorate and Master of Energy Regulation Law, May 2027

Activities: 1L Honor Code Representative, Food and Agriculture Law Society, Environmental Law Society

Ongoing Summer 2025 Coursework: Three Essentials to the Electric Grid, Land Conservation Law, Renewable Energy Development, Intro to Global Energy Law and Policy, Environmental Economics and Markets, and Quantitative Analysis

#### **California State University, Long Beach, Long Beach, CA**

B.A., *cum laude*, in Political Science, May 2022

Honors: Pi Sigma Alpha

### **EXPERIENCE**

#### **Institute for Energy and the Environment (IEE), South Royalton, VT**

*Clinician, Anticipated May 2025- August 2025*

Intend to investigate barriers to low-income solar ownership and develop ownership models, how-to guides, and template legal agreements specific to the needs of low-income communities so that clean, distributed solar can help reduce income inequality.

#### **Perkins Coie LLP, Palo Alto, CA**

*Legal Practice Assistant- Patent Prosecution Team, May 2022-July 2024*

Composed non-deadline driven reports, audit letters, and invoices for clients. Maintained client databases regarding the progress of matters. Collaborated with internal billing teams to resolve billing matters. Scheduled meetings between attorneys and USPTO examiners. Contributed ideas to enhance team dynamics and productivity as workloads increased.

#### **Ogletree Deakins, Torrance, CA**

*Recruiting Administrative Assistant, January 2022-May 2022*

Curated expense reports for recruiting manager. Managed and published job postings for the West Coast offices. Catalogued applicant information through internal databases. Conducted administrative tasks like printing student packets and pass on phone calls while in office. Generate offer and termination letters through DocuSign.

#### **Stroock, Stroock, and Lavan LLP, Los Angeles, CA**

*Receptionist and Records Assistant, March 2021-January 2022*

Organized case documents in internal databases. Collected and input four attorneys' billable hours. Managed expense reports for attorneys. Maintained law library by checking in books.

#### **County of San Mateo, Redwood City, CA**

*Intern Fellow II, Intern, February 2019-November 2020*

Delegated legislative assignments to twenty-six interns. Collaborated with local non-profits to create equitable programs for the county. Co-authored numerous legislative declarations and talking points for the County Supervisor. Researched bill proposal ideas. Coordinated with in-house and outside partners for community events. Constructed numerous templates for interns to form uniform legislation.

#### **College of San Mateo, San Mateo, CA**

*Peer Tutor, January 2019-December 2020*

Counseled students on English, History, and Political Science curriculum

*ASCSM Board Member and Legislative Director, August 2019-December 2020*

Reviewed federal and state legislation regarding community college resources and benefits for students. Directed on-campus activities for peers.

### **ADDITIONAL INFORMATION**

*Certifications:* UCLA Paralegal Program, September 2021

*Interests:* Baking bread, edible gardening, reading *The Hunger Games* series, and hiking around Big Sur, Inverness, Half Moon Bay, and Mendocino

## Sustainability and Infrastructure Commission Commissioner

### REQUIREMENTS:

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

### BACKGROUND INFORMATION

Name: Jean-Paul Renaud

Email: [REDACTED] Primary Phone: [REDACTED]

Address: [REDACTED] San Mateo [REDACTED]  
Street City Zip Code

San Mateo resident since: 2024 I am a registered voter in City of San Mateo: Yes

Board or Commission interested in serving on (*check all that apply*):

Did you attend a meeting for this Board or Commission?: No

### QUALIFICATIONS

My qualifications for serving on this board/commission are as follows: I bring more than 20 years of leadership experience in the public and nonprofit sectors, with a deep commitment to sustainable community development, environmental justice, and equitable infrastructure planning. Currently, I serve as Executive Director of Canopy (canopy.org), a Palo Alto-based urban forestry nonprofit dedicated to growing healthy urban forests in underserved neighborhoods and advancing environmental equity through tree planting, education, and community engagement. I oversee a \$2 million budget, a 20-person staff, and a 14-member board of directors, and work closely with government agencies, community partners, and residents to implement greening initiatives that support long-term health and resilience. Previously, I was Chief Communications Officer at TreePeople, Los Angeles' largest environmental nonprofit, where I led rebranding, digital learning, and policy communications that helped drive climate resilience and green infrastructure solutions across Southern California. I also served as a Peace Corps Response Volunteer in Ukraine, supporting public health and advocacy organizations to build local leadership and sustainability practices. Throughout my career—including senior leadership roles at UCLA and early experience as a journalist covering infrastructure and education—I have developed expertise in strategic planning, civic engagement, and translating complex policy into accessible narratives. With a Master's in Public Administration and a track record of cross-sector collaboration, I am passionate about bringing inclusive, community-centered approaches to sustainability and infrastructure planning in San Mateo.

I want to serve on this board/commission because: I believe that nature-based solutions—like urban trees and green infrastructure—are essential, yet too often overlooked components of sustainability and climate adaptation planning. In my work leading Canopy, I've seen firsthand how strategic investments in urban forestry can reduce heat, improve public health, enhance biodiversity, and build community resilience. Yet despite their proven benefits, these solutions rarely have a seat at the table when decisions about infrastructure and land use are made. As San Mateo continues to grow and adapt to the challenges of climate change, we have a critical opportunity to reimagine our built environment—not just for people, but for the ecosystems we rely on. That means planning for wider tree wells that can sustain large, protective trees; installing permeable surfaces that allow us to capture and use stormwater more effectively; and integrating reflective materials that mitigate urban heat. I want to serve on this commission to advocate for these practical, scalable strategies and to help ensure that sustainability is not an afterthought, but a foundational principle in how we design the future of our city.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: I hold a Master's in Public Administration from Florida International University and a Bachelor's in Communication from the University of Miami, grounding my work in both strategic policy thinking and effective public engagement. Professionally, I've held leadership roles across the nonprofit, government, and academic sectors. At Canopy, I lead an organization focused on urban greening, equity, and community-based climate resilience. Prior to that, I served as Chief Communications Officer at TreePeople in Los Angeles, where I helped lead major sustainability initiatives, including launching a digital learning platform and overseeing a \$1.5 million rebranding strategy to expand the organization's reach and policy impact. Internationally, I served with the U.S. Peace Corps in Ukraine, where I built leadership academies for HIV/AIDS and public health organizations and helped establish an LGBTQ+ advocacy forum—underscoring my commitment to inclusive community building. I also bring prior experience in higher education administration at UCLA, where I led strategic communications for the College and advised on diversity and development efforts, and in journalism, where I covered infrastructure, education, and public policy. These roles have given me a strong foundation in civic issues, public messaging, stakeholder engagement, and the intersection of social and environmental policy.

**Graduate of:**

## JEAN-PAUL RENAUD, MPA

Experienced leader with more than 20 years in the public and nonprofit. Skilled in community-building, leadership, strategic planning, advocacy, project management, communications, marketing, speechwriting.

### Professional Experience

#### **Executive Director, Canopy; Palo Alto, CA - 2023 - present**

- Overall responsibility for Canopy's programs and operations.
- Oversight of Canopy's \$2 million budget and about 20 members staff
- Management of Canopy's 14-member board of directors, including membership and management in multiple internal committees
- Responsible for direction of the organization, including maintaining and growing Canopy's financial resources to secure organizational strength and effectiveness.
- Work across the organization with program leaders, staff, Board members and other volunteers in order to center and advance the mission in day-to-day work.
- Responsible for organizational capacity and health

#### **Chief Communications Officer, TreePeople; Los Angeles, CA — 2019 - 2023**

- Key member of leadership team in charge of all communications and marketing strategies for Los Angeles' largest environment nonprofit.
- Managing team responsible for positioning TreePeople as the foremost environmental organization in the region with key stakeholders, including media, influencers, donors, policy makers and community leaders.
- Conceptualized and spearheaded major initiative that created an online learning platform during the COVID-19 crisis in order to ensure organizational relevance and mission integrity.
- Oversaw a \$1.5 million rebranding strategy aimed at expanding organizational impact nationally.

#### **Organizational Capacity Building Specialist, U. S. Peace Corps Response; Cherkasy, Ukraine — 2018-2019**

- Led strategic communications and organizational planning for HIV/AIDS and community development nonprofit organizations in Ukraine.
- Conceptualized and created a first-of-its-kind Leadership Academy aimed at training

public health organizers to identify, mentor and lead vulnerable populations to self organize and build sustainable communities.

- Consulted and modernized communications infrastructures for several non profit organizations in Ukraine, including creating strategic plans and effective messaging.
- Organized a first-of-its-kind LGBT forum in the region that resulted in the creation of a new advocacy group for the community.

**Executive Director of Communications, UCLA College;**

**Los Angeles, CA — 2013-2018**

- Established a full-service office and built a five-person team responsible for all internal and external communications for California's largest academic unit.
- Advised the College's five deans on external relations and communication strategies including marketing, strategic communications, crisis management, campus climate and diversity initiatives.
- Worked closely with development officers to create proposals, case statements and fundraising strategies for all major gifts.
- Developed and produced the College's visual and written content, including brochures, press releases, newsletters, web pages, multimedia assets, and the biannual College Magazine. Oversaw the College's website and all social media accounts.
- Oversaw the College's largest events, including major fundraising events as well as public lectures by former UN Secretary-General Kofi Anan, former Secretary of State Hillary Clinton and U.S. Rep. John Lewis.

**Executive Speechwriter to the Chancellor and Executive Vice Chancellor, UCLA;  
Los Angeles, CA — 2016-2017**

- Oversaw an office that researches and writes all speeches for the Chancellor and the Provost/Executive Vice Chancellor.
- Responsible for Chancellor's written communications, including letters, columns and campus-wide communications; oversaw or authored more than 125 remarks.

**Assistant Director of Media Relations, Florida International University;  
Miami, FL — 2008-2013**

- One of three members in charge of crafting and implementing the media strategy for the nation's 15th largest university.
- Charged with conceptualizing and implementing strategic plans to enhance FIU's reputation.
- Tasked with developing and implementing events and opportunities that cultivated relationships with media.

**Staff Writer, Los Angeles Times; South Florida Sun Sentinel  
Los Angeles, CA — 2007-2008**

**Fort Lauderdale, FL — 2004-2007**

- Covered Los Angeles County, the nation's largest local government. Stories included the controversial construction of light rail through a low income, predominantly Latino neighborhood and the government's efforts to ban the popular taco truck from county streets.

- Covered the nation's sixth largest public school district as the newspaper's lead education writer. The beat required the understanding of complicated budgets and complex education initiatives and policies.

## Education

- Florida International University, Miami, FL — Master's in Public Administration, 2011
- University of Miami, Miami, FL — Bachelors of Arts in Communication, 2003

## Skills

- Native Spanish and French speaker. Basic Ukrainian speaker.
- Well-versed in traditional, non-traditional and digital media tools, including all social media platforms as well as mainstream CMS (Wordpress, Drupal).
- Highly proficient with MS Office Suite (Word, Excel, PowerPoint).

**CITY OF SAN MATEO  
BOARDS AND COMMISSIONS APPLICATION**

**Sustainability and Infrastructure Commission  
Commissioner**

**REQUIREMENTS:**

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

**BACKGROUND INFORMATION**

Name: Kevin Simpson

Email: [REDACTED] Primary Phone: [REDACTED]

Address: [REDACTED] San Mateo [REDACTED]  
Street City Zip Code

San Mateo resident since: 2008 I am a registered voter in City of San Mateo: Yes

Board or Commission interested in serving on (*check all that apply*):

Did you attend a meeting for this Board or Commission?: Yes

**QUALIFICATIONS**

My qualifications for serving on this board/commission are as follows: I have been closely involved with San Mateo sustainability and infrastructure issues for the past five to six years. My earliest involvement with a specific issue was over ten years ago, when I noticed city contractors had damaged a neighbor's sewer lateral and caused human waste to flood the sidewalk on Humboldt near the school bus pickup. Over the course of two days I pushed repeatedly to get city to clean up the mess first and foremost, then figure out who was at fault and recover costs if appropriate. It concerned me that toxic waste was allowed to sit. I later spoke at City Council and secured agreement that in similar cases cleanup would take priority over seeking fault. Children, elderly, pets--or anyone--should never be exposed to human waste while the blame game is played. Since then I've engaged on issues like the Humboldt Bike Lanes, Norfolk and Third, general street and lighting improvements, the 92-101 connector, and many other issues at multiple levels. I've attended meetings related to Complete Streets both city-wide and for North Central. I have a long background in operations with a tech company based in San Mateo and am a passionate believer that we need a multi-modal, pedestrian and bike/scooter friendly city to realize the potential San Mateo has to be a great community for everyone.

I want to serve on this board/commission because: Balancing competing interests is never hard. The best public policy is made when all stakeholders not only have a voice but a solid understanding of the limitations and opportunities. I find that city policy is often hobbled by inadequate outreach, inadequate detail in plans or options, and a lack of imagination for alternatives and solutions. I want to make the current process of prioritizing needs and executing the vision less frustrating for everyone, whether it's city staff or constituents, businesses or visitors. Sustainability and Infrastructure is an often overlooked arena compared to others such as public safety or planning issues, but it can have a truly massive day to day and year to year impact on the quality of life. The nitty-gritty is what makes the city.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: -10+ years civic involvement in sustainability and infrastructure issues. -20+ years as a leader in a successful San Mateo based tech startup serving the Life Sciences and High Tech industries, including operations, communications, enablement and go-to-market. -Cofounded B Street Boosters, a local civic advocacy group for a vibrant downtown. -Board Member, San Mateo County Astronomy Society, focused on public outreach and activities.

# CITY OF SAN MATEO BOARDS AND COMMISSIONS APPLICATION

## Sustainability and Infrastructure Commission Commissioner

### REQUIREMENTS:

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

### BACKGROUND INFORMATION

Name:	Lindsay Raike			
Email:	[REDACTED]		Primary Phone:	[REDACTED]
Address:	[REDACTED]	[REDACTED]	[REDACTED]	
	Street	City	Zip Code	
San Mateo resident since:	2000		I am a registered voter in City of San Mateo:	Yes
Board or Commission interested in serving on ( <i>check all that apply</i> ):				
Did you attend a meeting for this Board or Commission?:	Yes			

### QUALIFICATIONS

My qualifications for serving on this board/commission are as follows: As CEO and co-founder of Warm Water Wellness, I bring a strong foundation in accessibility advocacy, nonprofit leadership, and inclusive community development. My volunteer work has focused on expanding health and wellness access for seniors, people with disabilities, and those recovering from injuries—populations often most affected by aging infrastructure, limited mobility options, and public safety challenges. I have successfully led collaborative efforts with city departments, engaged in public comment and policy discussions, and built grassroots momentum to restore access to therapeutic aquatic services. My leadership was recognized with the San Mateo Mayor's Hero Award and Jefferson Award for advancing inclusive health infrastructure and community wellness. I am also one of the founders of No Cell Outs, a resident-led group advocating for greater oversight and transparency in wireless infrastructure. That experience sharpened my understanding of how infrastructure intersects with environmental responsibility, community health, and equitable development. With San Mateo's current focus on public safety, electrification, and infrastructure modernization—as outlined in the General Plan 2040—I believe my perspective and experience would contribute meaningfully to the Sustainability & Infrastructure Commission's mission and work.

I want to serve on this board/commission because: I am deeply invested in helping San Mateo grow into a more inclusive, safe, and sustainable city. Serving on the Sustainability & Infrastructure Commission would allow me to bring a health- and accessibility-focused lens to decisions that shape our shared spaces and services. I believe that when we design and invest in infrastructure with equity in mind, we not only improve safety and access—but also build a more resilient, connected, and future-ready community. I was recently approached by a sitting commissioner seeking more input from the disabled community—a request that deeply resonated with me. While I've regularly engaged through advocacy and public comment, I believe that disability representation within advisory bodies is essential to making systemic change. San Mateo is on the path toward transformative goals—such as electrification, climate resilience, green infrastructure, integrated water management, and infrastructure modernization. As an accessibility advocate and nonprofit leader, I'm committed to ensuring that we bring a people-first approach to these efforts. When we embed equity into the planning process from the beginning—not as an afterthought—we create a city that works better for everyone. My passion for community wellness, paired with my practical understanding of how public policy, infrastructure, and inclusion intersect, is what drives my desire to serve.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: CEO & Co-founder, Warm Water Wellness – Led a successful community campaign to restore access to the Mickelson warm water therapy pool, advocating for health equity and inclusive public infrastructure San Mateo Mayor’s Hero Award Recipient – Honored for civic leadership and impact in advancing inclusive community health and wellness Jefferson Award Recipient – Recognized by KPIX 5 for outstanding public service benefiting the Bay Area community Certificate of Recognition Recipient – Acknowledged by Assemblymember Diane Papan for community efforts to restore access to the Mickelson Therapy Pool Co-founder, No Cell Outs – Co-led a grassroots advocacy effort that resulted in the City Council adopting 300-foot setbacks for wireless facilities near homes and daycares. Advocated for environmental justice, community safety, environmental health, and transparent local decision-making Chancellor’s Service Award, UCLA – Awarded for outstanding contributions to UCLA and the broader community Founder, Learning with Lindsay – Offers individualized tutoring support, helping local students thrive through a personalized, student-centered approach Founder, Striving Together – Provides resources and art therapy based emotional support for individuals with disabilities and chronic pain, as well as their families and caregivers Disability & Accessibility Advocate – Frequently consulted with residents, commissioners, and staff on infrastructure-related access concerns Civic and Environmental Engagement – Active in city meetings, public comment, and advocacy on issues including wellness infrastructure, wireless facility siting, and climate-conscious development Commitment to Sustainability – Deeply aligned with the City’s General Plan 2040 goals, particularly in climate action, electrification, and equitable infrastructure investment Trusted Community Connector – Known for inclusive, solution-oriented collaboration and strong relationships across diverse stakeholder groups

# **LINDSAY RAIKE**

## **Civic-Minded Educator · Disability Advocate · Expressive Arts Facilitator**

I am passionate about inclusive, equitable communities and bring over 25 years of experience of supporting youth, families, and individuals impacted by disabilities, learning differences, and chronic pain. As a longtime San Mateo resident and community advocate, I've led initiatives advancing public health, accessibility, and responsible infrastructure. I approach all work—whether academic tutoring, emotional support, or civic engagement—with compassion, creativity, and an unwavering belief in human resilience.

## **EDUCATION & TRAINING**

M.A., Counseling Psychology – Emphasis in Expressive Arts Therapy  
California Institute of Integral Studies, San Francisco, CA

B.A., World Arts & Cultures – Emphasis in Art History  
University of California, Los Angeles (UCLA)  
Cum Laude, Dean's List, Golden Key Honor Society, Chancellor's Service Award

Additional specialized training in Lindamood-Bell sensory-cognitive reading methods, SAT preparation instruction, and STEAM-integrated learning

## **AWARDS & HONORS**

- San Mateo Mayor's Hero Award – For community leadership, coalition-building, and successful efforts to restore warm water therapy pool access
- Jefferson Award for Public Service – Recognizing grassroots advocacy and community service
- Certificate of Recognition from Assemblymember Diane Papan – Acknowledging community efforts to restore access to the Mickelson Therapy Pool
- UCLA Chancellor's Service Award – For outstanding contributions to UCLA and the broader community
- Golden Key National Honor Society, UCLA
- Dean's Honor List & Cum Laude Graduate, UCLA
- Hugh O'Brien Leadership Award – Recognizing early commitment to leadership and service at Burlingame High School

## **COMMUNITY LEADERSHIP**

Co-founder & CEO, Warm Water Wellness Inc – San Mateo, CA

*warmwaterwellness.org*

2021–present

- Spearheaded a community campaign to restore access to the Mickelson warm water therapy pool
- Engaged stakeholders and city leadership around the public health value of therapeutic infrastructure
- Advocated for health equity, disability inclusion, and age-friendly public spaces

Co-founder, No Cell Outs – San Mateo, CA

2023–present

- Co-led a community movement to address resident concerns over cell tower placement
- Achieved policy change: City Council instituted 300-foot setbacks from homes and daycare centers
- Mobilized community engagement through education, organizing, and public comment

Founder, Striving Together – San Mateo, CA

*strivingtogether.care*

2012–present

- Provide expressive arts-based emotional support for individuals and families affected by chronic pain and disabilities, including ongoing groups focused on resilience, creative expression, and emotional well-being
- Facilitate therapeutic peer groups for women with chronic illness and family members of individuals with disabilities
- Collaborate with healthcare and educational professionals to build customized systems of care

## **EDUCATION & ADVOCACY EXPERIENCE**

Founder & Educational Consultant, Learning with Lindsay – San Mateo, CA

*learningwithlindsay.com*

1996–present

- Tutor K-12 students in English, math, French, science, test prep, organization, study skills, and executive function
- Support students with learning disabilities, ADHD, ASD, and emotional challenges
- Advocate for IEPs, 504 plans, and school accommodations; attend meetings and liaise with educators
- Founded Artz Groupz, arts-based peer groups helping teens manage anxiety and academic stress
- Offer parent coaching and mentorship around school navigation and disability rights

## **EARLIER VOLUNTEER & PRO BONO SERVICE**

Mills-Peninsula Medical Center Support Group – San Mateo, CA  
Expressive Arts Facilitator, 2001

- Facilitated an expressive arts group for women with chronic pain, fostering emotional healing through creative exploration
- Created a safe, supportive environment for participants to share experiences, build community, and develop coping strategies

North County School Crisis Intervention Team – Burlingame, CA  
Crisis Team Member, 1999–2001

- Developed prevention/intervention strategies for at-risk teens in school settings

Ventura Youth Authority/ArtsReach – Ventura, CA  
Intern & Program Facilitator, 1996

- Introduced arts-based rehabilitation programs to incarcerated teen mothers
- Co-created a video to deter gang involvement; exhibited student art in public installations
- Authored senior thesis: “Rebuilding Lives Through the Arts in the Ventura Youth Authority”

Business Industry School – Crenshaw, CA  
Tutor & Group Facilitator, 1994–1995

- Tutored teen mothers for GED exams; facilitated parenting and life skills groups

UCLA Volunteer Tutor – Watts & LA Unified Schools  
1993–1994

- Provided academic and emotional support to elementary school students in under-resourced communities

**CITY OF SAN MATEO  
BOARDS AND COMMISSIONS APPLICATION**

**Sustainability and Infrastructure Commission  
Commissioner**

**REQUIREMENTS:**

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

**BACKGROUND INFORMATION**

Name: Nathan Stump

Email: [REDACTED]

Primary Phone: [REDACTED]

Address: [REDACTED] San Mateo [REDACTED]  
Street City Zip Code

San Mateo resident since: 2020 I am a registered voter in City of San Mateo: Yes

Board or Commission interested in serving on (*check all that apply*):

Did you attend a meeting for this Board or Commission?: No

**QUALIFICATIONS**

My qualifications for serving on this board/commission are as follows: I have a passion for sustainability and infrastructure improvement, both professionally and personally. Prior to purchasing my home and moving my family to San Mateo in 2020, we lived on a large coastal ranch in Half Moon Bay for nearly 20 years. This experience taught me first hand the value of balancing preservation with development on our own large property. Professionally, I have extensive experience marketing solutions for the construction and utility industries, where sustainability is a leading initiative. Currently, I lead product marketing for Oracle's Utility business unit. In my professional roles, I have been fortunate to see multiple sides of the sustainability initiative, including the role that technology can have in supporting intelligent and responsible infrastructure development and minimizing environmental impacts. Ultimately, I would like to bring my skills to the commission to help create a more sustainable, resilient, and livable city for current and future generations. Further to the above, I have relevant knowledge or experience including: - Mechanical Engineering degree from Cal Poly, San Luis Obispo (where my senior research involved exploring alternative energy sources) - Energy, policy, and community engagement - Strong communication, collaboration, and project management skills - Technology solutions for construction and project management, critical thinking, and problem-solving abilities - Commitment to representing our community's diverse interests - Availability to attend meetings and contribute time

I want to serve on this board/commission because: In addition to a genuine interest, relevant experience, and the ability to contribute my time, I am looking for opportunities to make a tangible difference in my community. I see this role as having the ability to directly influence local policies and projects that shape the city's environmental health, transportation systems, energy use, and overall infrastructure for the better. I believe that I can help champion initiatives that promote environmental protection, resource conservation, and a more resilient future for the city. I would like to ensure the city's essential systems are safe, efficient, equitable, and meet the needs of all residents. Serving on the commission would also provide me an opportunity to voice the concerns and priorities of neighbors and contribute to decisions that impact everyone. I would also enjoy the opportunity that serving on this commission would provide me to learn and grow. It would be a chance to deepen my understanding of local government processes, sustainability challenges, and infrastructure management. I could connect with other passionate individuals, city staff, and community leaders working towards common goals. And finally, I see serving on the commission as a way to contribute to the well-being and long-term prosperity of my community.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: In addition to the experience and interest that I noted above, it might be useful to know that I have always valued building community and giving back as a volunteer. Whether it be through coaching youth and high school sports, serving as a dad's club president, or simply assisting my neighbors with various projects, I am usually the first one to raise my hand when help or leadership is required. You can see a full summary of my professional background in my attached resume.

Top Skills

- Go-To-Market Planning
- B2B Marketing
- Project Management
- Strategy & Market Research
- Cross-functional Leadership

# Nathan Stump

Director of Product Marketing | Oracle Utilities  
San Mateo, California, United States

## Summary

Marketing and strategy professional with extensive experience developing and executing strategies and programs to market and sell leading enterprise SaaS and mobile solutions for complex industries including engineering, construction, and utilities. Specific expertise in B2B go-to-market strategy, account and persona-based marketing programs, and sales enablement for direct and channel sales teams. Track record of leading cross-functional teams to identify market opportunities and build innovative programs to drive growth.

CORE COMPETENCIES:

- Go-to-Market Strategy Planning
- Product Messaging & Positioning
- Market & TAM Research
- Solution Selling
- Competitive Analysis
- Sales Enablement
- Account Based Marketing
- Sales Certification Programs
- Partner Marketing
- Channel Programs

---

## Experience

Oracle, Inc.  
4 years

Director of Product Marketing  
August 2024 - Present (10 months)

I lead product marketing for the Oracle Utilities Global Industry Unit. My team is responsible for bridging the gap between product strategy and development and the market. We craft product positioning, build awareness, drive demand, enable our ecosystem of sales professionals and partners, and ensure alignment with overall Energy and Water go to market goals.

## Product Marketing Director

June 2021 - August 2024 (3 years 3 months)

San Francisco Bay Area

As product marketing director, I am responsible for the market success of our most innovative construction and engineering products - the Construction Intelligence Cloud and our Smart Construction Platform including a Common Data Environment. I build the platform positioning and messaging, orchestrate product launches, drive market success, and enable our ecosystem of sales professionals and partners.

## HOVER Inc.

Director of Marketing

February 2020 - April 2021 (1 year 3 months)

San Francisco, California, United States

HOVER is building the future of 3D property data with a platform that lets anyone create accurate 3D models from a few smartphone photos. Our goal is to disrupt the home improvement industry and reinvent the homeowner experience, enabling you to measure, design, and estimate exterior home improvement projects in one place.

My projects include:

- Understanding the market and market needs, with an emphasis on buyer and decision maker personas.
- Development of positioning, messaging, and competitive differentiation to inform broader marketing efforts.
- Enablement of sales teams with tools and collateral to ensure they are aligned and can work efficiently to generate and close opportunities.

## Rhumbix

Director of Product Marketing

January 2019 - January 2020 (1 year 1 month)

San Francisco, California

Rhumbix modernizes construction field operations, helping builders go paperless in the field and improving how they measure and manage productivity. The Rhumbix Field Data Platform is a cloud-based mobile solution that collects and digitizes data from previously paper-based workflows. As head of product marketing, I led:

- Positioning, messaging, and persona development
- Go-to-market strategy and launch planning
- Sales enablement, collateral, and tools
- Competitive intelligence

## Kespri

Director, Product Marketing

May 2017 - December 2018 (1 year 8 months)

Menlo Park, CA

Kespri provides a drone-based intelligence platform to transform how organizations capture, analyze and share insights about their business, providing the data they need to accelerate operations. As head of the product marketing team, I developed and executed go-to-market plans, product launches, and campaigns across three primary vertical industries, with unique messaging and positioning by persona. Crafted a wide range of assets to support demand generation and sales teams, including demos, videos, sales decks, case studies, solution overviews, white papers, infographics, competitive intelligence, and ROI calculators. Represented the company and presented at trade shows, industry events, and press briefings. Contributed numerous articles to industry publications and company blog.

Additional projects included:

- Creation of industry-specific ROI and business case templates to support sales and customer champions
- Built new demo platforms, content, and scripts, and trained sales teams
- Launched ABM programs to identify, profile, and target the “top 100” accounts across three industries
- Led content and copy production for a full re-design of corporate website
- Collaboration with product management to identify and prioritize solution requirements and roadmaps

## Aconex

Director of Product Marketing

May 2015 - May 2017 (2 years 1 month)

San Francisco, CA

Aconex provides a leading cloud collaboration platform for digital project delivery, connecting all stakeholders with visibility, control, and data insights. Reporting to the CMO, I led the product marketing team responsible for developing solution positioning, industry and persona-specific content, sales enablement, and product launches for a leading construction project management platform. Led a cross-company initiative to upskill the global sales team of 100+ to a solution-selling methodology that clearly demonstrated how the solution solved specific challenges, and the value the solution delivers to a customer's business.

Additional projects included:

- Go-to-market strategy planning, including integrated demand generation campaigns, account based marketing programs, and sales strategies that build the business case for investment in Aconex solutions
- Production of sales tools and marketing collateral including sales pitch decks, demo platforms and scripts, playbooks, datasheets, brochures, videos, case studies, blogs, and whitepapers
- Analysis of customer data, content engagement, market segments, competitors, and best-in-class SaaS providers to support relevant positioning and marketing strategies

## Autodesk

### Sr. Marketing Strategy Manager

June 2012 - April 2015 (2 years 11 months)

San Francisco Bay Area

Responsible for developing and executing go-to-market strategies and plans focused on the global engineering and construction industries. Focus areas included programs and enablement for the newly created direct sales teams, driving cross-selling initiatives, and transitioning perpetual business models to termed SaaS offerings.

## PTC

### Market Strategy & Business Development Manager

June 2010 - June 2012 (2 years 1 month)

San Jose, CA

Developed global go-to-market strategies and sales programs, including production of sales enablement assets and competitive collateral in support direct and channel sales teams. Also led technical sales efforts for strategic accounts in SF Bay Area. Highlight project: Spearheaded competitive displacement campaign and assets resulting in a 50% increase in competitive “knockouts”.

## Dassault Systèmes SolidWorks Corporation

### Technical Sales Manager

June 2006 - June 2010 (4 years 1 month)

San Francisco Bay Area

Channel Technical Manager for SolidWorks CAD, simulation, and data management / collaboration products in in the Western U.S. and Canada. Responsible for channel business development with emphasis on building technical and sales capabilities. Developed and delivered product, sales, and industry training programs, dramatically reducing new employee ramp-

up times. Built customer-facing presentations, demo scripts and data sets to support new product introductions.

---

## Education

California Polytechnic State University; San Luis Obispo, CA  
Bachelor's Degree, Mechanical Engineering

Space Systems/Loral; Palo Alto, CA  
Manufacturing Engineering Internship

**CITY OF SAN MATEO  
BOARDS AND COMMISSIONS APPLICATION**

**Sustainability and Infrastructure Commission  
Commissioner**

**REQUIREMENTS:**

- Resident and a registered voter of the City of San Mateo
- Meeting attendance required
- If appointed, must attend a commissioner orientation session & any training offered

**BACKGROUND INFORMATION**

Name: Rebecca Dun

Email: [REDACTED]

Primary Phone: [REDACTED]

Address: [REDACTED] San Mateo [REDACTED]  
Street City Zip Code

San Mateo resident since: 2021 I am a registered voter in City of San Mateo: Yes

Board or Commission interested in serving on (*check all that apply*):

Did you attend a meeting for this Board or Commission?: No

**QUALIFICATIONS**

My qualifications for serving on this board/commission are as follows: My qualifications for this commission blend technical expertise, community engagement, and a commitment to equitable policy. As a software engineer focused on sustainability, I bring a systems-thinking mindset and experience translating data into practical solutions. As a daily public transit rider and community garden volunteer, I understand San Mateo's infrastructure and sustainability challenges firsthand. Finally, I am committed to ongoing self-education about the lived experiences of marginalized communities, ensuring my decisions center those voices often overlooked.

I want to serve on this board/commission because: As a San Mateo resident who commutes by public transit, enjoys local parks, and volunteers in community gardens, I see firsthand how sustainability and infrastructure shape quality of life. I want to serve because San Mateo's future depends on integrating sustainability into energy, transportation, public spaces, and resource management. This commission's broad scope matches my passion for combining technical insight with a human-centered approach. I'm particularly motivated by the General Plan 2040's emphasis on racial equity and its vision for a resilient, inclusive community. My goal is to amplify voices of marginalized residents and contribute to policies that promote resilience and justice for all.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: Beyond my professional and volunteer roles, I actively seek out perspectives that differ from my own to inform my approach to public service. I regularly engage with books (*The Color of Law*, *Murder State*, *Diasporican*), forums, and community discussions that highlight the lived realities of historically marginalized groups-experiences that are often overlooked in policy decisions. This ongoing self-education keeps me grounded, challenges my assumptions, and deepens my understanding of how infrastructure and sustainability policies can impact residents differently. I believe that centering these voices is essential for crafting equitable, effective solutions for San Mateo's future.

**Graduate of:**

[polds@cityofsanmateo.org](mailto:polds@cityofsanmateo.org)

## Civil Engagement & Advocacy

- Drafted policy memos on sustainability, contributing to the US's first dam removal project on the Klamath river ahead of schedule.
- Advocated climate solutions like kelp farming and regenerative agriculture with state legislators.
- Participated in General Plan 2040 forums; submitted analysis on housing density / transit access.
- Submit maintenance requests to improve park facilities (i.e. fountain, bathrooms, trash)

## Community Involvement

- Daily multi-modal commuter (biking, Caltrain, BART, bus), reducing environmental impact.
- Volunteer, San Mateo Community Gardens and San Francisco-Marín Food Bank
- Founded and moderated a Bay Area intern hiking group (10k+ members), organizing free, inclusive community hike events.
- Engaged San Mateo resident for housing affordability and quality of life as a renter.

## Professional Experience

### Software Development Engineer, Amazon AWS Infrastructure – Sustainability

*Jan 2025 – Present*

- Develop tools to optimize carbon-free energy asset management, balancing profitability with environmental stewardship for one of the world's largest clean energy portfolios.
- Collaborate with cross-functional teams to align with corporate and regulatory goals (PPA, EAC)
- Built a live monitoring system, reducing financial audit time by 6 months annually.

### Software Development Engineer, Amazon Music – Free & Prime Customers

*Jan 2021 – Dec 2024*

- Improved UX and playback for 30+ million Free and Prime mobile customers.
- Led cross-team advocacy efforts to resolve accessibility gaps, resulting in improved playback resilience by 30% and a seamless playback experience for users with diverse needs.

### Software Engineer, Stilt

*Mar 2020 – Aug 2020*

- Automated unsecured loan document creation, complying with state loan regulations and increasing approval rates for thousands of first-generation immigrants.
- Integrated real-time fraud detection (i.e. two-factor authentication), reducing unauthorized access and safeguarding user accounts.

Email:	[REDACTED]	Primary Phone:	[REDACTED]
Address:	[REDACTED]	san mateo	[REDACTED]
	Street	City	Zip Code
San Mateo resident since:	1996	I am a registered voter in City of San Mateo:	Yes
Board or Commission interested in serving on ( <i>check all that apply</i> ):			
Did you attend a meeting for this Board or Commission?:	No		

**QUALIFICATIONS**

My qualifications for serving on this board/commission are as follows: I am a life long business person with a strong financial background. I have been a CPA for over 45 years. I spent 10 years working in a very large accounting firm. In 1986 I co-founded a small accounting firm and over the next 25 years grew it to over four hundred people. In 2013, I left that firm and founded S D Mayer & Associates, another accounting and consulting firm. We now have over 90 people and have an office in San Mateo. Over the years I have served on over 15 non profit organizations often in a leadership, financial or strategic position. About 15 years ago, we founded a Sustainability Consulting practice to help our clients understand the need for the strong sustainable practices. Though we no longer have that practice, we practice it at our company. I also have been involved in many committees in San Francisco over the years studying the ever growing problem of trying to fit cars, public transportation, pedestrians and bikes into the same space. As an avid bike rider, I know first hand this is not an easy problem to solve. I also understand the need to rebuild our infrastructure and maintain it with long term policies.

I want to serve on this board/commission because: A few years ago, my daughter quit her job and moved to London to get a master degree in Sustainability where she now works. Listening to her describe the environmental issues we face today, makes me more committed to getting involved and being part of the solution.

Please list any other background information (business, education, community involvement) which might be useful in considering your appointment and attach a resume: I think I explained my background information in the first two questions as well as my resume which is attached.

City Clerk's Office, 330 W. 20th Avenue, San Mateo, CA 94403, (650) 522-7040, [polds@cityofsanmateo.org](mailto:polds@cityofsanmateo.org)

Attachment: Susan Rowinski S&I Commission Application

May 2, 2025

**My qualifications for serving on this board/commission are as follow:**

I have 14 consecutive years, 2011- present, of formal service to the city and a local civic organization, the Beresford Hillsdale Neighborhood Association (BHNA),

2011-2014, I served on the BHNA board of serving as President 2012-2014.

2015-present, I have been serving as commissioner for the city of San Mateo.

2016-2018: Commissioner of the (former) Public Works Commission.

2018-present: Commissioner of the Sustainability and Infrastructure Commission, serving as Chair in 2020 and 2023.

Because of my 14 years of civic experience, the qualifications I offer the city are.

- 1) **Established** relationships with residents (disabled and abled) and businesses throughout the city allow me to reach out and speak with them one-on-one to better understand the personal impacts of updating/creating ordinances and plans. This outreach is done outside SIC meetings.
- 2) Ability to create **new** relationships with residents (disabled and abled) and businesses. To do this I have discussions about the old fashion way; going door to door to better understand the personal impacts of updating/creating ordinances and plans. This outreach is done outside SIC meetings.
- 3) Established relationships with city staff which helps me to carry out my duty as a commissioner, which is advisory to staff and council on ordinances, projects and plans related to environmental sustainability, transportation and infrastructure.
- 4) Knowledgeable with the city processes to create **new** ordinances, projects and plans such as Electrification of existing homes/buildings plan.
- 5) Knowledgeable with the city's processes to update **current** ordinances, projects and plans such as North Central Bike Lanes projects, the recently updated Small Cell Ordinance.
- 6) Familiarity with the city's Boards & Commissions Rules and Procedures, the state's Brown Act etc.

**I want to serve on this board/commission because.**

I am applying for my final term as a commissioner because of the exciting and challenging times ahead to assist the city council and staff with their efforts to plan for district specific and city-wide environmental sustainability, transportation and infrastructure plans and projects.

Plans and projects of particular interest to me include the North Central Bike Lanes, Hillsdale Ped/Bike Bridge, Electrification of Existing Building City Plan, US 101/SR 92 Mobility Hub, US101/SR 92 Direct Connector and city wide and North Central complete streets.

While not a formal city project or plan, I am interested in continuing to identify ways to increase input from the disabled and senior communities into city ordinances, plans and projects.

I see my longevity, experience and qualifications as a commissioner as an asset for the city. A commission with new and experienced members is a benefit to the city and our residents and businesses.

**A list of any other background (business, education, community involvement) might be useful in considering my appointment.**

a) Business Background

Since 2004, I am president and CEO of Rowinski Group LLC, a consultancy retained by companies, investors, governments and universities, based in Australia, Asia, North America, the Middle East and the EU, all of whom are developing new and novel medical procedures to diagnose and treat human diseases. 2025 marks the 21st year in business. headquarters is now the city of San Mateo. <https://rowinskigroup.com>

b) Education Relevant for a Commissioner:

April 2025- Attended San Mateo County Planning Commissioner training entitled "*First/Last Mile Transportation*." Held at the San Mateo Main library.

2021-2024- Completed the city's training on the Brown Act, the Boards-Commission Rules & Procedures, conducting wireless small cell appeals.

c) Other Community Involvement

2019-present: As a volunteer I assemble a team of 9 other volunteers and together we oversee 50-60 volunteers from the Bair Island Aquatic Center (BAIC) to participate every September in the statewide California Coastal Clean-up event. Using boats and kayaks T"eam BIAC" removes 2,000 lbs-2,700 lbs of debris from the SF bay's shorelines, mudflats and surface waters.

2000-2003- I am the founding president of the Bair Island Aquatic Center (BIAC) located in Redwood City. BIAC is a non-profit organization with a mission to promote to the public the responsible, low-impact enjoyment and preservation of the SF Bay and tributaries. BIAC offers human-powered watercraft programs and education, while providing access to the San Francisco Bay's sensitive and unique ecosystem. BIAC membership is about 375 people and includes people of all incomes and demographics. <https://www.gobair.org>

1994-1996: Board Member, Community Affairs Board for Medtronic Inc. The board was responsible for identifying and providing scholarships to college undergraduate women and minorities students who were pursuing a degree in engineering, science or math. The scholarships awarded were typically about \$12,000.

1992-1994: Board Member, YWCA Employment Services Advisory Board. The board was responsible for creating working relationships between the YWCA and local businesses to help match qualified YWCA clients with appropriate employers

## Introduction

**Which board/commission were you applying for?**

Sustainability and Infrastructure Committee

## Section 1. Applicant Contact Information

**Name**

P. Nadisha Silva

**Pronoun (e.g., she/her, he/him, they/them)**

she/her

**Address**

[REDACTED]

[REDACTED]

**Phone Number**

[REDACTED]

**Email Address**

[REDACTED]

**Are you a resident of San Mateo County?**

Yes

**In what supervisorial district do you reside?**

3

## **Section 2. Application**

**Are you applying for a seat that requires special qualifications or a categorical seat on a Board, Commission, or Committee?**

No

**Have you attended a meeting of the Board, Commission, or Committee for which you are applying?**

No

**Do you currently serve on a San Mateo County Board, Commission, or Committee?**

No

**Are you available to regularly attend the meetings of the Board, Commission, or Committee for which you are applying?**

Yes

**How many hours per month can you commit to this Board, Commission, or Committee?**

5-10 hours

**Why are you interested in being appointed to this Board, Commission, or Committee?**

I am a scientist by profession and currently a small business owner with a sustainability mission ( [www.tidepoolplay.com](http://www.tidepoolplay.com)). I have some background and interest in ecology and circular economic practices.

I am also the mother of two young children who are both finally of school-going age. I hope to be able to use some of my time to provide a scientific view and advocate for circular principals in planning and infrastructure projects.

**List your civic and volunteer activities if you have any.**

My husband and two children have lived in San Mateo for 4.5 yrs now and have benefited from the city wide services - the speech and development services for my daughter who was non-verbal for the first 3.5 yrs of life , to the library and wonderful schools Lakeshore and Parkside Montessori. As parents, this has been our first year being able to volunteer at our children's school. I have volunteered at one of the fundraising events and hosted a ecology table at Parkside 's Earth Day event last month. San Mateo has been a wonderful place for our family and children and as such I wish to contribute and giveback to this community.

## APPLICATION FOR YOUTH COMMISSIONER

Date: 5/1/25

Applying For: ☒ Library Board ☒ Parks and Recreation ☒ Senior Advisory ☒ Sustainability & Infrastructure

NAME: <u>S [REDACTED], Advika</u>		
Last	First	Middle
STREET ADDRESS: <u>[REDACTED]</u>		
CITY: <u>Foster City</u>	STATE: <u>CA</u>	ZIP CODE: <u>[REDACTED]</u>
PHONE: Home <u>n/a</u>	E-mail <u>[REDACTED]</u>	
Cell <u>[REDACTED]</u>		
How long have you lived in San Mateo? <u></u>	Date of Birth <u>[REDACTED]/2009</u>	

School: <u>[REDACTED] High School</u>
School Address: <u>[REDACTED] San Mateo</u>
Grade Level: <u>Tenth Grade</u>

### Background/Relevant Experience

As of November 2024, I have been serving on the Youth Executive Board for Blood Services with the [REDACTED] and have worked with a committee to educate and provide more opportunities for people to become involved in donor services and blood donation. In the past year, my team and I have hosted various seminars and engaging club activities with 103+ participants to encourage STEM education and focus on the field of phlebotomy and humanitarian aid. I have learned to provide innovative hands-on perspectives towards different scenarios and have built up creative skills vital in communication. Additionally, I am a member of multiple sports teams at my school and have volunteered at various different institutions in my area, prompting me to adopt various collaborative qualities and the ability to communicate and provide motivation for people. In the past couple of years, I have been focused on giving back to my community through various non-profit and volunteer opportunities --- I have been an avid volunteer at my community library since 2023 and have been teaching at my karate studio ([REDACTED]) while training to get my black belt. These experiences have taught me to think outside the box and gently encourage people to share their ideas; to stay resilient and patient throughout varying situations, and to work collaboratively with a growth mindset to achieve my goals.

**City Clerk's Office**  
**Application for Youth Commissioner**  
**Position**  
Page 2 of 2

Have you attended any Commission meeting(s)? If so, how many? I have not previously attended any Commission meetings.

**Present and Previous Community or Civic Involvement:**

Throughout my high school experience, I have strived to improve my community and become involved with the environment around me to make it a better place. At school, I have been a member of the Service Commission, a selective class that volunteers during events and raises school spirit. Most recently, I was chosen to be a student ambassador (Link Crew Leader) to incoming freshmen and appointed onto the school Leadership class, beginning onboarding for the two roles shortly.

**Explain briefly why you are applying for this position:**

I would like to be a youth commissioner in order to become more connected to the young community in San Mateo and what they want to improve, and to experience taking on an active role in representing my peers in federal decisions. Through my time volunteering with several different institutions, I have found various ways to contribute to making the community an environment where everyone can thrive, and I have gained invaluable experience and skills that would be beneficial to various commissions in development. As a hopeful applicant, one of my goals for the upcoming year would be to organize more diverse and inclusive measures for the youth to collaborate and give their input towards city decisions, and procure a vast array of opportunities for creativity and engagement. I believe that through the voice of young adults, we are given access to a new perspective on certain situations and that everyone's voice counts when making choices that affect the whole community. By being a youth commissioner, I would continue to work to make everyone's opinions shared and improve our joint facilities and programs to create an improved and happier city.

**What about this Commission's purpose inspired you to apply?**

The Commission works to include youth perspectives in city-wide decisions being made and allows them to voice their opinions on different campaigns and measures being implemented; being able to attend council meetings and see what initiatives are being instituted inspired me to apply as it ensures that there will be representation for everyone and all voices will be heard when deciding what decisions should be made on the city.

*I hereby affirm that my answers to the foregoing questions are true and correct and that I have not knowingly withheld any fact or circumstance that would, if disclosed, affect my application unfavorably.*

*Signed*

Advika

## APPLICATION FOR YOUTH COMMISSIONER

Date: 5/2/2025

Applying For: ☒ Library Board ☒ Parks and Recreation ☒ Senior Advisory ☒ Sustainability & Infrastructure

NAME: O	Ellie	C
	Last	First Middle
STREET ADDRESS: [REDACTED]		
CITY: San Mateo	STATE: CA	ZIP CODE: [REDACTED]
PHONE: Home [REDACTED]	E-mail [REDACTED]	
Cell [REDACTED]		
How long have you lived in San Mateo? 10 years	Date of Birth [REDACTED]/2008	

School: [REDACTED]

School Address: [REDACTED]

Grade Level: 11

### Background/Relevant Experience

I volunteer at the [REDACTED] of the library almost every week. I've been part of STEM and sustainability programs including: the [REDACTED], the [REDACTED] mentorship program, and the [REDACTED] Summer Immersion program. I am also part of book club at my school where we read various books and discuss it with each other and the [REDACTED] program where I've become a much more confident public speaker.

Have you attended any Commission meeting(s)? If so, how many? Not yet

**Present and Previous Community or Civic Involvement:**

Right now, I am part of the [REDACTED] team where we try to advocate for or against policies that could impact sustainability. I am also a [REDACTED] volunteer at the library and I volunteer there almost every week. I am currently working on two passion projects. One of them is a year long school project that I am leading about protecting the elderly from scams. We plan on presenting presentations about how to stay safe from scams at senior centers. In fact, I have one planned this week. Another one of my passion projects is teaching kids about AI. I've created a website that includes projects kids can make with AI. I also plan to have a presentation about how to use it, the potential dangers, and also the potential benefits of using AI. I also plan to do a presentation at an elementary school two weeks from now.

**Explain briefly why you are applying for this position:**

I am interested in this position, specifically the Sustainability & Infrastructure Commission because I am passionate about sustainability and creating a more green environment for everyone, especially for the future. I think that I can help bring people together to help foster more sustainable practices. Additionally, I want to become an inspiring advocate for sustainability through public speaking.

**What about this Commission's purpose inspired you to apply?**

This commission's purpose that inspired me to apply was how the commission is giving voices to the youth and I feel like it is very important for young people to get involved in civic issues. As in the future, we're going to be the ones shaping the future for our communities. Especially on issues such as climate change, we will need more innovative and careful strategies to tackle such a large issue. Thus, I was inspired to apply to get experience tackling civic issues in my community and hopefully use this experience in the future to positively impact my community to be a voice for change.

*I hereby affirm that my answers to the foregoing questions are true and correct and that I have not knowingly withheld any fact or circumstance that would, if disclosed, affect my application unfavorably.*

## APPLICATION FOR YOUTH COMMISSIONER

Date: 4-30-2025

Applying For: ☐ Library Board ☐ Parks and Recreation ☐ Senior Advisory ☒ Sustainability & Infrastructure

NAME: F	Gabriella,	
	Last	First Middle
STREET ADDRESS:		
CITY: San Mateo	STATE: CA	ZIP CODE:
PHONE: Home	E-mail	
Cell		
How long have you lived in San Mateo? 15 years	Date of Birth /2010	

School: Highschool

School Address: San Mateo, CA

Grade Level: Freshman

### Background/Relevant Experience

I am passionate about serving as a Sustainability and Infrastructure Youth Commissioner because it will be a meaningful way for me to give back to my community while challenging myself simultaneously. As a student at , I currently have strong foundations in Mathematics and Science, and I am interested in pursuing a future in civil engineering. I'm eager to solve real-world problems that affect my community's environment. This is an opportunity for me to contribute to a positive change in my surroundings; I otherwise would not have had the chance to do.

Have you attended any Commission meeting(s)? If so, how many? \_\_\_\_\_

**Present and Previous Community or Civic Involvement:**

One instance of Civic Involvement was as a previous cafeteria worker at my middle school, where I had the opportunity to directly support my community by providing free lunches to Spanish-speaking peers. My ability to speak Spanish allowed me to serve food in an effective way that would have otherwise been difficult for other staff members. For two years, I established relationships with my community that I would not have otherwise been able to do, and improved the way my peers received food. This experience highlighted the importance of inclusivity and the importance of advocating for other voices.

**Explain briefly why you are applying for this position:**

The Commission's focus on sustainability and infrastructure deeply resonates with me because these are areas that directly affect the long-term well-being of our community. I'm inspired by the opportunity to contribute to initiatives that create lasting, positive change—whether through improving public spaces, enhancing environmental responsibility, or ensuring that infrastructure needs are met in a way that benefits everyone. This Commission's purpose aligns with my desire to help build a stronger, more sustainable community, and I'm eager to be part of those efforts.

**What about this Commission's purpose inspired you to apply?**

My interest in civil engineering, combined with the opportunity to make a visible impact on my community, motivated me to apply for the Sustainability and Infrastructure Commission. I am excited by the chance to contribute to projects that strengthen sustainability and improve infrastructure in San Mateo. Unlike other commissions, this one aligns closely with my passion for supporting the structural development of my community.

*I hereby affirm that my answers to the foregoing questions are true and correct and that I have not knowingly withheld any fact or circumstance that would, if disclosed, affect my application unfavorably.*

How long have you lived in San Mateo?	N/A	Date of Birth /2009

School:	High School
School Address:	San Mateo, CA
Grade Level:	9th

### Background/Relevant Experience

I play Chess at a professional level and have represented the United States in many international tournaments. I am a FIDE Master from the and National Master with the . As a professional chess player, I am very logical and good at problem solving. I hope to use it to help solve problems in our community. I am ready to commit to working extra time, to make sure I learn as I observe the committee and contribute, so that the committee can accomplish its objectives. I am certified as a tournament director with the and organize tournaments at the Mechanics Institute in San Francisco (USA's oldest chess club).

Chess can be a stressful game and in order to manage my stress and stay calm during tournaments, I got interested in mindfulness. I practice on an ongoing basis breathing techniques that help me stay focused and less stressed. It also helps me with more energy and increases my focus.

Have you attended any Commission meeting(s)? If so, how many? Only Virtual meetings

Present and Previous Community or Civic Involvement:

Have helped organize chess tournaments

Have volunteered in community events in [REDACTED] Middle School

Explain briefly why you are applying for this position:

I am interested in how policy is made and would like to learn and contribute at the same time from a student/youth perspective. My primary interests are around Climate change, Earthquake response and Urban planning. I am working towards doing some research using data science on these topics this summer. I am also interested in mental health issues in youth. Many students are stressed out frequently, and use their cellphones to cope with their stress. This is clearly hurting many students abilities to do well in class.

What about this Commission's purpose inspired you to apply?

The commission provides an opportunity for everyone in our community to participate with decisions the City makes. I find it interesting, that most adults complain about the government, but do not actively participate when given the opportunity. I want to learn more about how I can understand how the government works, but also how to use this knowledge to learn more about policy making but also to engage more of our community to participate in cities' activity.

*I hereby affirm that my answers to the foregoing questions are true and correct and that I have not knowingly withheld any fact or circumstance that would, if disclosed, affect my application unfavorably.*

Signed

Premar Sarbosh

STREET ADDRESS: <u>[REDACTED]</u>		
CITY: <u>San Mateo</u>	STATE: <u>CA</u> <u>[REDACTED]</u>	ZIP CODE: <u>[REDACTED]</u>
PHONE: Home <u>[REDACTED]</u>		E-mail <u>[REDACTED]</u>
Cell <u>[REDACTED]</u>		
How long have you lived in San Mateo? <u>Since birth</u>		Date of Birth <u>[REDACTED]</u> 2009

School: <u>[REDACTED] High School</u>
School Address: <u>[REDACTED] San Mateo, CA</u>
Grade Level: <u>10</u>

### Background/Relevant Experience

- I was a founding member of the [REDACTED] in 2021. As a member of [REDACTED] I have advocated for electrification policies at San Mateo City Council meetings and priority setting sessions. For our advocacy work on Reach Codes, [REDACTED] received the 2023 Acterra Champions of Promise Award.
- I just recently participated in the [REDACTED] program - 2024-2025 cohort. Throughout the program, I learned a lot about climate change, climate solutions, and how to use my voice to advocate for climate action. As part of my capstone project, I researched the use of methane gas as an energy source at my school. I helped to incorporate our research into a presentation to the SMUHSD on the dangers of methane and how to reduce our heavy reliance on it.
- I'm a co-founder and Vice President of the [REDACTED] at [REDACTED] High School. We are a student-led club that organizes local hikes at San Mateo County parks and environmental volunteering for [REDACTED] students.
- I also participated in the [REDACTED] program through [REDACTED] in the Winter/Spring 2025 cohort. We did habitat restoration work and planted native plants at Stulsaft Park in San Mateo County.
- I'm a member of [REDACTED] in the San Mateo Chapter. In [REDACTED] I helped organize a school climate event.
- I was a Leader in Training at [REDACTED] at [REDACTED] in the Summer of 2024.

**City Clerk's Office**  
**Application for Youth Commissioner**  
**Position**  
**Page 2 of 2**

Have you attended any Commission meeting(s)? If so, how many?

I have watched a few S&I Commission meetings on Peach Codes online. I've also spoken at multiple San Mateo City Council meetings.

Present and Previous Community or Civic Involvement:

Advocated for strong electrification policies at San Mateo City Council meetings.

Helped with a presentation to the SMUHSD board about the use of methane gas at my school.

Participant in the [REDACTED] program.

Co-founder and Vice President of the [REDACTED] at [REDACTED] High School.

Member of [REDACTED], Participant in Youth Land Stewards program.

Explain briefly why you are applying for this position:

I'm applying for a position on the Sustainability & Infrastructure Commission because I care a lot about San Mateo and want to help shape decisions that affect the environment, public spaces, and the people who live here. I believe that youth can offer a valuable perspective, especially on issues like sustainability and climate action that will affect our futures the most. At the same time, I know I still have a lot to learn. Serving on a Commission is a great way to grow, contribute, and be part of something bigger than myself.

What about this Commission's purpose inspired you to apply?

I was inspired to apply for the Sustainability & Infrastructure Commission because I'm interested in helping to implement climate solutions and encourage sustainable living. Youth will have to live with the consequences of our climate actions much longer than older generations will. Therefore, I believe that youth should have a big say in shaping climate and sustainability policies and programs.

*I hereby affirm that my answers to the foregoing questions are true and correct and that I have not knowingly withheld any fact or circumstance that would, if disclosed, affect my application unfavorably.*

Signed

Jack Scott
