

Mid County Multimodal Strategy & the US 101 San Mateo County Crossings Improvement Plan (Active 101)

San Mateo Sustainability & Infrastructure Commission

November 13, 2024

Agenda

- 1 Introduction
- 2 What is 101 Corridor Connect?
- 3 Multimodal Strategies
- 4 Mid County Multimodal Strategy
- 5 Active 101
- 6 Q&A

Introduction

Have You Experienced Traffic Like This on US 101?

What is 101 Corridor Connect?

- A collaborative program to identify and prioritize **congestion management** projects along US 101 in San Mateo County.
- It looks **beyond just highway infrastructure** and considers the mobility needs of the corridor as a whole.
- **Program partners** include C/CAG, Caltrans, cities, transit agencies, and San Mateo County.

Reducing Congestion

Multimodal Strategies

North County | **Mid County** | South County

What is a Multimodal Strategy?

The Multimodal Strategies are planning documents that will identify and prioritize needed projects in San Mateo County.

Multimodal Strategies will be developed for the entire 101 corridor as the first initiative of 101 Corridor Connect.

Multimodal projects include highway, active transportation, transit, and other types of improvements.

Multimodal Strategy Development

Step 1: Identify and Evaluate

Transportation projects on the freeway and within the one-mile buffer will be identified through existing planning documents and capital improvement programs and through discussions with agency staff.

Identified projects will be assessed for their potential to address congestion on US 101 and evaluated against criteria based on various factors including grant program guidelines, community feedback, and the TA's Strategic Plan.

Multimodal Strategy Development

Step 2: Prioritize and Deliver

Projects will be prioritized based on the results of the evaluation process to inform the final program of projects. Implementation strategies will be developed for each project to help ensure a coordinated approach to delivering projects.

Project Study Area

Mid County
Belmont, Burlingame, Foster City,
San Carlos, San Mateo, Redwood
Shores
Now – Spring 2025

Project Timeline

Community/ Stakeholder Engagement

Components

- Webpage
- Survey
- Pop-Up Events (in each city)
- CBO Partnerships
- Stakeholder Presentations
- Project Working Group Meetings
- Temporary Bus Stop Signs
- Multilingual Documents and Interpretation

Local Plans

How Will Active 101 Do This?

148 Projects

75 Prioritized Projects:
Active 101 Phase 1

8-10 Preliminary Designs:
Active 101 Phase 2

How to Participate

The screenshot shows a web browser displaying the '101 corridor connect' website. The page features a navigation bar with 'Home', 'North County', 'Mid County', 'South County', and 'English' options, along with a search bar. Below the navigation is a banner for 'Active 101' with a background image of a person walking on a bridge. The main content area is titled 'US 101 San Mateo County Crossings Improvement Plan' and includes a paragraph explaining the plan's goal to improve travel conditions. Below this is a section titled 'Explore Proposed Projects' which is divided into three columns: 'North County' (blue background with an 'N' icon), 'Mid County' (orange background with an 'M' icon), and 'South County' (green background with an 'S' icon). Each column contains a brief description of the projects and a 'Support Projects >' link.

Active 101

US 101 San Mateo County Crossings Improvement Plan

US 101 is the busiest corridor in San Mateo County. However, the freeway itself can also act as a barrier for people walking, biking, and taking transit. The Active 101 plan aims to identify crossing and corridor improvement projects and enhance travel conditions within near US 101.
