

LANDSCAPE LABORER

LANDSCAPE MAINTENANCE WORKER I/II

DEFINITION

Under supervision, performs a variety of skilled gardening and landscape maintenance duties associated with the development, repair, and maintenance of public landscaped areas. Operates a wide variety of park and/or golf course equipment; may operate various mowing equipment to cut a variety of turfgrass areas throughout the City; and to perform related work as required.

Landscape Laborers and Landscape Maintenance Workers **I/II** are found in the Parks and Golf Course Divisions of the Parks and Recreation Department. Incumbents in these classifications may work individually on occasion, but primarily in combination with other Landscape Maintenance Workers and **Landscape** Laborers as a crew assigned to specific gardening and maintenance projects in City parks, municipal golf course, athletic fields, or other City facilities.

DISTINGUISHING CHARACTERISTICS

Landscape Laborer - This is the entry level class in the Landscape Maintenance Worker class series. This position must be adaptive and work well with others. The laborer will be the primary position for all manual tasks. The individual must have good work habits and display good judgment and be able to work safely. The position must demonstrate the ability to operate a full range of hand **tools** and light engine equipment or acquire the skills after training.

Landscape Maintenance Worker I - This is the mid-level class in the Landscape Maintenance Worker class series. The positions in this class will normally perform most of the duties required of the Landscape Maintenance Worker I and II. However, as compared to the Landscape Maintenance Worker II, they are not expected to function at the same skill level and will normally exercise less discretion and judgment on matters related to work procedures and methods. Work is usually supervised while in progress and fits a pattern which has been established and explained before the work is started. Generally, changes in procedures or exceptions are explained in detail as they arise. Work assignments vary depending upon the function to which individuals are assigned and periodic work assignment transfers occur both for training purposes and to meet departmental staffing and work productivity requirements.

Landscape Maintenance Worker II - This is the journey level class in the Landscape Maintenance Worker series. Positions in this class are flexibly staffed and are normally filled by advancement from the Landscape Maintenance Worker I class, or when filled from the outside, require prior experience in the maintenance of landscaped areas. Appointment to the higher class requires that the employee be performing substantially the full range of duties for the class and meet the qualification standards for

the class. All positions assigned to the class require the ability to work independently, exercising judgment and initiative. For positions assigned to the golf course and landscape mowing crews, the demonstrated ability to operate the full range of park equipment normally utilized by the City in a safe, efficient and proper manner is a prerequisite for being assigned to the class. Work assignments vary depending upon the function to which individuals are assigned and periodic work assignment transfers occur both for training purposes and to meet departmental staffing and work productivity requirements.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from the Senior Park Landscape Maintenance Worker or **Golf Course Maintenance Supervisor**. Technical or functional supervision may also be provided by higher-level department personnel. May provide supervision for seasonal (per diem) workers.

EXAMPLES OF DUTIES - Depending upon assignment, duties may include, but are not limited to, the following:
