Subject: Support outdoor dining spaces

Hi Council members!

Thanks for your continued support and energy during such a difficult year.

I'd like to voice my support of outdoor dining and support extending the parklet program and street closures for the outdoor dining around downtown, 25th and other areas in town.

Would love to see more outdoor dining and year round experiences in the future. Maybe there are portions of downtown that could have continued outdoor dining tables set up to bring your take out in a courtyard/ partial street closure or other setting.

All my best,

Vanessa
