Hi Sheila,

Ahead of tonight's meeting I wanted to say THANK YOU for listening to the community. You took our feedback into consideration and delivered great options. I was very pleased with the park meeting and the follow up assessment. I also went to West Hillsdale to review the swing height of 8' and you and your team are right, this will be sufficient for the needs of our park. Overall the project changes were a great turn around and my family, neighbors and I can't wait for our NEW PARK!

Looking forward to tonight's meeting. Feel free to reach out to me if you have any questions regarding my feedback. Thanks again for listening!

Regards,
Kevin Mille

Thank you Kevin for your follow up comments and for participating in last evening's meeting. Our staff will be regrouping next week to identify modifications to the existing plans that are more consistent with neighborhood comments.

Appreciate your heartfelt interest!

Regards,

Sheila

Sheila and the Parks and Rec Team -

I wanted to thank you for reaching out to the community on feedback for the upgrades to the park. We have a 3yr old son who plays in the park daily as we are adjacent to the park so this change is very important to us. You summarized the points of the majority feedback from the community well. The key takeaway is that the hidden parks are really unique. So although it does make sense in other parks to have grand structures (we absolutely LOVE beresford) its just not the appropriate structures for the setting of our hidden parks.

To summarize:

- Maintain a large grass area
- Maintain sand for children to play
- Size and scale of park structures should be consistent with the size and scale of the park
- Lighting is ample
- Review trees and irrigation
- Exterior pathway needs repaving

Thank you so much for taking the time to reach out to the community for feedback. Feel free to contact me if you have any questions or would like any additional feedback. Thank you for all you do for our community!!!

Sincerely,

Kevin, Elizabeth and Harrison Mille
