RE: Appeal of Decision Application for Permit # 2023-000136, identified as 2317 Armada Way, San Mateo

From: Mary Komatsu, Kiyoshi Komatsu, Homeowner 2321 Armada Way San Mateo

Ladies and Gentlemen of the Sustainability and Infrastructure Commission, we are protesting the approval of the above referenced application on the grounds that it is not in keeping with Sections 17.10 (a) and Subsection 17.10 (a) (2).

The selected location does not protect and preserve the visual or aesthetic character of the neighborhood as effectively as other alternative locations, notably ALT #12, 916 Shoal, San Mateo. The proposed and approved location is in the maximum visual plane of all who ingress and egress the neighborhood. Thus, it has maximum visual impact for the community.

Alternative locations are more discrete and not at the very front of the entrance and egress of our community. As such, the alternative location is more appropriately in keeping with section 17.10 (a) (2).

As referenced in Section 17.10 (a) (1), the public private balance is to be maintained on a case-by-case basis. We request reconsideration of this case in favor of an alternative location with less visual impact on the whole community.

I've recently been informed about the following matter by my neighbor. Having resided in this area for more than nine years, I kindly request that an alternative location be considered for the proposed change. This change has the potential to adversely affect the value of my home. I would greatly appreciate your efforts in finding an alternative placement for this matter.

I want to express my gratitude for the opportunity to voice my opinion, and I appreciate your consideration in this matter.
