TO: City Council
FROM: Christina Horrisberger, Interim City Manager
PREPARED BY: Community Development Department
MEETING DATE: July 17, 2023

SUBJECT:

Below Market Rental Rates, Sales Prices and Unit Community Priorities – 2023 Revisions

RECOMMENDATION:

Adopt a Resolution to establish 2023 maximum rental rates and sales prices for affordable housing as required by the City of San Mateo's Below Market Rate (BMR) housing program; and establish Community Priority for units containing three or more bedrooms, which may allow a developer to provide fewer BMR units in exchange for units with more bedrooms as long as all other BMR program provisions are followed.

BACKGROUND:

In November 1992, the City Council established the BMR housing program that requires new housing developments of 11 or more units to include a certain percentage of the units as "affordable". The affordable housing targets have been revised from time to time. As of February 2020, a rental project must include 15% of the units that are affordable to Lower Income households, whose incomes do not exceed 80% of the median income (\$104,400-\$196,850, depending upon family size). For owner occupied housing, 15% of the units must be affordable to Moderate Income households, whose incomes do not exceed 120% of the area median income (\$147,000-\$277,200, depending upon family size). These are the minimum requirements and developers may elect to utilize State Density Bonus provisions to provide deeper affordability in exchange for development concessions. The City receives updated median income figures from the U. S. Department of Housing and Urban Development and the State Housing and Community Development offices each spring. All BMR units are subject to maximum rental rates and sales prices that are revised by the City Council on an annual basis to reflect changes in the area median income (AMI) as well as average interest rates for mortgages. This year the median income increased approximately 5%. However, in 2019 the City Council adopted a 4% cap on BMR rental increases to address the significant median income increases over the past few years.

Rental Rates

Maximum rental rates are determined by calculating 30% of 50% of the Area Median figure adjusted by family size for Very Low Income and 30% of 60% of the Area Median figure for Low Income adjusted by family size. The maximum rent figures include the cost of gas and electric utilities, garbage and water, but excludes telephone. Calculated rents cannot exceed Fair Market Rents (FMR) as published by the San Mateo County Housing Authority. Utilizing these formulas, the maximum rental rates after applying the 4% cap over last year for 2023 are:

	<u>Very Low Income</u>	<u>Low Income</u>
Studio	\$1,265	\$1,508
1-Bedroom	\$1,435	\$1,728
2-Bedroom	\$1,619	\$1,947
3-Bedroom	\$1,801	\$2,165
4-Bedroom	\$1,947	\$2,336

Very Low- and Low-Income maximum rents increased approximately \$49-\$90 but are still well below the current market.

Sales Prices

Maximum sales prices for condominiums and townhouses are established by first determining an affordable monthly housing payment, which is defined as 30% of 100% of AMI adjusted by family size for Moderate Income and 30% of 70% of AMI for Low Income. An allowance for property taxes, insurance, and homeowners' association dues is factored into the monthly payment. The sales price is then calculated assuming a 5% down payment and a 4.23% interest rate (15-year average as published by Freddie Mac). Sales prices for single family detached houses are calculated using the above mentioned methodology except that the formula for the monthly payment for detached single family houses is 35% times 110% of the monthly median income. Utilizing these formulas, the maximum sales prices for 2023 are:

	<u>Low Income</u> <u>Condo/Townhome</u>	<u>Moderate Income</u> <u>Condo/Townhome</u>	<u>Single Family</u> <u>Detached</u>
Studio	\$300,000	\$467,000	n/a
1-Bedroom	\$332,000	\$523,000	\$704,000
2-Bedroom	\$387,000	\$603,000	\$806,000
3-Bedroom	\$440,000	\$680,000	\$906,000
4-Bedroom	\$485,000	\$743,000	\$988,000

The sales prices increased this year by approximately 0-5%, depending on income level. The 2023 maximum sales price for the low-income studio increased by \$1,000 and the low-income one-bedroom decreased by \$3,000 from the 2022 maximum sales prices. The reason for this is because the homeowner's association dues were adjusted for the 2023 maximum sales price calculation. The Council reserves the right to change the prices at any time in the event of significant changes in the market, interest rates or other conditions.

Community Priority

BMR program revisions effective January 1, 2010 included flexibility in the bedroom count of the BMR units based on Council adoption of community priorities. An applicant may propose a different bedroom mix in the BMR units other than a straight pro rata of the market rate units as long as the total bedroom count is the same or more, and that the total number of BMR units equal at least 10% of the project.

For 2023, staff recommends that Council continue to adopt a Community Priority for large units consisting of 3 or more bedrooms, based on the shortage of those units currently in the BMR inventory compared to the families on the waiting lists. For example, a 40-unit complex consisting of all 2-bedroom units could provide the City four 3-bedroom units (10%) instead of the standard requirement of six 2-bedroom (15%) units. The City Council has the ability to change this priority each year to respond to different needs in the future.

BUDGET IMPACT:

There is no impact to the General Fund.

ENVIRONMENTAL DETERMINATION:

This item is not a project subject to CEQA, because it is an organizational or administrative activity that will not result in

direct or indirect physical changes in the environment. (CEQA Guidelines Section 15378(b)(5).)

NOTICE PROVIDED

All meeting noticing requirements were met.
